SUMMARY

Enthusiastic Cloud Software Engineer with a B.Tech in Computer Science & Engineering. Eager to apply and expand skills in DevOps and cloud technologies. Passionate about learning new technologies and contributing to innovative projects.

SKILLS

- | | | |
|----------|----------------|-----------------|
| • Linux | • Docker | • SDLC |
| • Python | • Jenkins | • Networking |
| • Shell | • Terraform | • CI/CD |
| • Groovy | • Git , GitHub | • AWS(EC2,S3) |
-

PROFESSIONAL EXPERIENCE

Projects:

Spotify Playlist Creator

Description: Developed a service to create playlists in Spotify using Terraform and Docker. The application allows users to add tracks and manage playlists.

Technologies Used: Terraform, Docker, Spotify API

Key Achievements:

- Integrated Terraform for scalable and repeatable deployments.
- Containerized the application with Docker for consistent environments.
- Improved user experience with seamless track addition and playlist management.

CI/CD Pipeline for Django Notes App

- **Technologies:** Jenkins, AWS, Docker, Docker Hub, GitHub.
 - **Summary:** Built and automated a CI/CD pipeline for a Django app using Jenkins. Integrated GitHub for automatic builds, Docker for containerization, and deployed on AWS EC2.
 - **Impact:** Streamlined deployment, reduced time, and improved code quality with automated testing.
-

EDUCATION

B.Tech in Computer Science & Engineering
MVJ College of Engineering, Bengaluru, India
year Graduation: 2025
CGPA : 7.6

EXTRACURRICULAR ACTIVITIES

FROM 2022 TO 2025

National Cadet Corps (NCC)

- Developed strong leadership and team management skills through active participation.
- Engaged in various training activities and community service projects.
