

T Nanda Kishore

Enthusiastic Cloud Software Engineer with a strong foundation in DevOps and Cloud Computing. Adept at delivering scalable and automated solutions using tools like AWS, Docker, Jenkins, and Terraform. Passionate about continuous learning, collaborating across teams, and upskilling through training and hands-on projects. Proven track record in building CI/CD pipelines, containerized applications, and cloud deployments. Seeking to leverage my skills in a dynamic role that combines technology with training and leadership.

Work Experience and Projects

Spotify Playlist Creator

Technologies: Terraform, Docker, Spotify API

- Developed a service for creating and managing playlists on Spotify using Terraform and Docker.
- Integrated Terraform for scalable and repeatable deployments, ensuring consistent environments.
- Enhanced user experience by enabling seamless track addition and playlist management.

CI/CD Pipeline for Django Notes App

Technologies: Jenkins, AWS, Docker, GitHub

- Built and automated a CI/CD pipeline for a Django-based notes app.
- Integrated GitHub for automated builds, Docker for containerization, and deployed on AWS EC2. Streamlined deployment processes, reducing manual intervention and improving code quality.

Internships

Tata Job simulation on Forage

During the simulation, I got hands on experience with data visualization tools like Power BI

Certifications

Docker Orchestration - Great Learning

System Administration - LinkedIn Learning

Educational Background

B.Tech in Computer Science & Engineering

MVJ College of Engineering, Bengaluru,
India Graduation: 2025
CGPA: 7.6

Pre-University Course (PUC)

Pupil Tree PU College, Ballari,
India May 2019 - July 2021
Percentage: 79.33%

Skills

Technical Skills

- **Cloud Technologies:** AWS (EC2, S3), Terraform, Docker
- **DevOps Tools:** Jenkins, Git, GitHub, CI/CD, Gitlab
- **Programming & Scripting:** Python, Shell, Groovy
- **Front End :** HTML, CSS, JS

Tools/Software

- MS Office (Excel, PowerPoint)
- Linux

Soft skills

- Communication
- Leadership Team
- Management
- Presentation Skills

Additional Information

National Cadet Corps (NCC)

- Developed leadership and team management skills through active participation.
- Engaged in various training and community service projects, demonstrating the ability to manage teams and execute complex initiatives.

Interests & Hobbies

- Cricket Listening to Music Reading
- Technology Blogs and Articles
- Traveling and Exploring New Places
- Volunteering for Social Causes
